Visual Analytics for Blockchain Based Contract Management

NY City, April 20, 2019 – Sysoft® Corporation announced today a new release of the Smart Contract Lifecycle Management (CLM) System based on Blockchain. The CLM System is integrated with visual analytics and context sensitive dashboards. The intuitive look and feel and visual analytics based interactive dashboards and reports provide productivity, ease of use and automated contract monitoring capabilities.

Current and prospective users of the CLM include Cities, Counties, States, Federal Agencies, Schools, Universities, NGOs and Corporations. CLM integrates with major ERP Systems, Office Productivity Tools, and other Sysoft® products such as Spend Analytics and SmartProcure infrastructure.

About Sysoft Corporation

Sysoft Corporation started operations in 1991 providing software products, services, and training for data science, eBusiness, mobile applications, device implementations, procurement sourcing systems, contract monitoring tools, clinical data science, big data predictive analytics, intelligent systems for aerospace, investment banking, supply chain and more. We focus on innovation, excellence, and client care. Our clients enjoy increased revenue, cost reduction, and predictive as well as prescriptive data driven intelligence.
